WHO WE ARE

Founded eighteen years ago, **Computer Warehouse Services, LLC** is a nationally recognized **Data Center, Server Equipment and Server Rack System Moving and Relocation Company**. **CWS** moves only IT equipment and as such, we are highly qualified and skilled in the **IT Relocation arena**.

- **CWS** is a team of professional and highly dedicated, nationwide, IT professionals who understand the numerous challenges to be overcome when **moving and migrating data centers, servers, server racks, and computer technology equipment**.
- Only **CWS Technicians** perform the un-racking and re-racking of your gear. Our personnel are highly experienced working in and around data center, server center and collocation environments.
- **CWS** is a “*White Glove*” IT moving solutions provider. We are the only ones who touch, package and securely move your equipment. No sub-contractors or third parties are used.
- Integrity and customer service are core values within the **CWS** organization.
- With high value **Server Equipment, Data Centers, Server Racks and IT Equipment**, there is a need for a competent solutions based server mover skilled to handle IT equipment safely, securely and properly.
- Whether you are a small business or office moving across the street or Fortune 500 Company moving across the country, **CWS** has the **technical expertise, specialized equipment, solutions and willingness to exceed your expectations at every opportunity**.

*"I wanted to tell you what a pleasure it was working with Sandy and the rest of the **CWS crew**. Sandy is not only a complete professional, but such an easy going and easy gentleman to work with. It made a very tough job with a very tight time frame go as smooth as silk. They were very accommodating to all our needs and completed the job as requested with no issues to report. I would definitely recommend **CWS** to anyone looking to move a datacenter in the future."*

Dale
Director, Network Services
